

InterActivity Diversity in Action Fellowship Program Application Form

ACM's commitment to diversity, equity, inclusion, and access means that every decision made by the organization amplifies our work of inclusivity and give priority to historically under-represented voices. The InterActivity Diversity in Action (DIA) Fellowship aligns with this intentional focus to recognize and include diversity in the children's museum field at our annual conference, InterActivity. The DIA Fellowship provides museum staff from underrepresented groups with complimentary registration to InterActivity 2025, a complimentary ticket to the evening event at Explora, networking opportunities at the conference, and access to a private community for awardees on the ACM Groupsite.

Please submit this application form, and any required supplemental materials, via myACM.

Nominee Name:

Museum/Organization Name:
